

We Make
**Homeownership
Happen**

We're here to help you get your home ready for the market!

There are several things you can do to prepare your home for listing that go beyond adding a fresh coat of paint or new flooring. Follow the tips below to increase your chances of receiving excellent offers and enjoying a seamless transaction. Get ready to make your home shine and attract more loan offers!

Use this checklist to be ready for FHA, USDA & VA offers this season:

- Confirm that the property is habitable, with running electricity and water, and all heating and cooling systems are functioning properly.
- Ensure that all structures on the property are free of peeling and chipped paint.
- Verify that the roof is in good condition and free of damage or leaks.
- Ensure that the attic shows no evidence of moisture or mold.
- Confirm that the electrical panel cover is securely attached to the panel.
- Repair or install any missing or loose hand railings on stairs, as well as safety railings on decks and porches.
- Check for any evidence of wood-destroying pest infestations and address them.
- Replace any broken or damaged windows and doors to ensure proper functionality.
- Install smoke detectors and carbon monoxide detectors if they are not already present.
- Ensure that any appliances included with the home, such as the refrigerator, stove, dishwasher, and dryer are in good, working condition.
- Have the water tested before listing the property and rectify any issues identified by the results.
- Know the general location of the well and septic tank.

This list is not a guarantee of FHA or VA approval but meant to be a helpful guide in preparing a house for what FHA and VA look for.
